

LAWSON - STAGE 1 HOUSING DEVELOPMENT GUIDE OCTOBER 2014

The Land Development Agency (LDA) provides a Housing Development Guide for all residential land sold in LDA estates.

It is important that estates reflect changing industry regulations and advancements in technology, this means that updates may need to be made to Housing Development Guide from time to time.

Specific changes are listed below, but please contact the LDA's selling agent on 1800 123 230 if you have any questions or would like further information.

8 October 2014

The following changes apply to the Lawson - Stage 1 Housing Development Guide:

AMENDMENT 3

Paragraph one of Section 4.16 Solar Hot Water Heaters is omitted and replaced with the following:

"4.16 ENERGY EFFICIENT HOT WATER SYSTEM INSTALLATION

For all Class 1a buildings, the water heater in a heated water supply system is either a solar or a heat pump heater. These hot water heaters are to comply with Section B2.4 (b) of the Plumbing Code of Australia (Volume 3, National Construction Code, 2014).
