## Hello and welcome to the first newsletter for 2019!

One year through the Mingle program we are excited to continue to work with you to build a strong and resilient community.

For those of you who are new to the neighbourhood, we thought we would do a quick refresh of who we are and what we do.

Mingle is a community development program, developed by the Suburban Land Agency (SLA) for our new estates in the ACT.

Mingle involves a range of events, activities and groups that help residents to get to know each other and work together to build the bonds and networks that form the foundation of a new community. All activities are based on the notion of encouraging new residents to feel part of their community and become involved in community life and activities.

Below is a picture that shows all the different areas that Mingle works in.

If you are interested in seeing a group or activity happen in Throsby that relates to one of these principles, feel free to get in touch.

# Throsby Ranger Series

Following the success of this activity last year, the Mingle Team has partnered up with Mulligans Flat Woodland Trust to bring you three exclusive Twilight tours.

These tours provide a unique experience to step back in time and experience the Australian bush as it was 100 years ago.

On the tour you might be lucky enough to witness the Eastern Bettong foraging on native truffles in

the wild or see a tiny sugar glider eating nectar from the top of a flowering eucalyptus tree. You can observe various kangaroo and wallaby species feeding in their natural environment. Possums are often spotted slowly walking along the ground from tree to tree, as they have adapted to their predator free environment.

Get inspired by learning how science is enhancing our understanding and ability to restore these critically endangered woodlands.
