The LDA together with Canberra-based company ORIMA Research, conducted a census of the Kingston Foreshore community. The census gauged how residents felt about being a part of the precinct community, its dining opportunities, parks and recreation and much more. This insight will allow the LDA to be better placed to plan for the future of the precinct.

THE BOARDWALK AND HONEYSETT VIEW – EXTEND YOUR WALK A LITTLE FURTHER

Harbour wanderers will soon be able to view the Kingston Foreshore harbour from a different aspect as works continue on the remainder of the Boardwalk plus construction of five giant boat-shaped viewing decks at Honeysett View.

Once complete, both areas will provide a new location to explore and connect from the rhythmic restaurant area on the Harbour’s western side to the newest developments on the precinct’s eastern side.

Honeysett View will be surrounded by pin oak trees (*Quercus palustris* Freefall) a species cultivated locally at the Yarralumla Nursery. The materials used are connected with Kingston Foreshore’s former industrial uses and also continue the precinct’s landscaping theme of ‘natural, raw’ materials.
